

To our patients,

There is no higher priority than the safety of our patients and employees. We closely monitor the Centers for Disease Control (CDC), the World Health Organization (WHO), government agencies to stay on top of this evolving situation. According to the most recent information from the CDC, for most people, the immediate risk of being exposed to the virus that causes COVID-19 is thought to be low.

We want you to feel confident when visiting our offices. As a result, we have enhanced some of our cleaning procedures in the interest of our patients' and employees' health and safety. We are also limiting the presence of any patient or employee who has any viral symptoms.

We will continue to monitor this developing situation closely. We are prepared to navigate through these challenging circumstances with your safety and confidence at the forefront of everything we do.

Sleep Medicine Services of Western Massachusetts.
